```

deleting inserted data

deletion performed using number so the inserted data
and its copy both deleted

the final output

```
public static void main(String args[]) {
    try{
        Class.forName("com.mysql.cj.jdbc.Driver");
        Connection connect = DriverManager.getConnection("jdbc:mysql://localhost/FDD", "root", "#SK@9087565902");
        Statement stmt = connect.createStatement();

        // Hardcoded insert using same style
        stmt.executeUpdate("insert into customer value('Ananya Rao', 9823145678, 'Mangpur')");
        stmt.executeUpdate("update customer set customer_place = 'mumbai' where customer_num = 9876543210");
        stmt.executeUpdate("delete from customer where customer_num = 9823145678");

        ResultSet rs = stmt.executeQuery("select * from customer");
        while(rs.next()){
            System.out.println(rs.getString("customer_name")+" "+rs.getLong("customer_num")+" "+rs.getString("customer_place"));
        }
        connect.close();
    } catch (Exception e) {
